THE FISHING SEASON.

The were faint signs of life at Fish-town this morning. One boat, loaded with herring, was discharging her cargo, and one light vessel was lying at the wharf. A dozen or more persons were on the premises, and some colored women were engaged in cu tag fish.

As has been the case during the past few years, the bulk of the fish are packed in barrels on the shores where caught and sent to, Alexandria on atsamere from which they are transferred to railroad cars and sent to the interior of the state. The herring, after having been sprinkled with sait, are placed in sugar barrels, each of which is supposed to hold one thousand. The steamer Northumberland, from Baltimore and river landings, brought up enough barreled fish yesterday to fill four cars. They were consigned to Lynchtu g. The herring were put aboard the steamer in Yeocomico river.

The gillers of this city are catching many shad at and below Jones's Point. They sell them at lower prices than those demanded in market. The bucksters th's morning were selling roe shad as high as 65 cents each and buck at from 30 cents up. Herring have declined in pric', and were selling at 20 cents a

ALLEGED VIOLATION OF LAW.

Cogswell, engineer of the steamer Jane Moseley, and Lewis Jefferson, owner of the boat, for violating section 4438 of the revised stetates, which forbids the employment of an unlicensed engineer or the service of an engineer of a passenger vessel without proper certificate. It is alleged that May 19 last Oogswell, who had only au assistant engineer's license, was employed by Jefferson to operate as chief engineer on the steamer Mosely, and that on that date Cogswell ran the boat down the Potomac river without having a chief engineer over him. The penalty prowided by the law is a fine of \$100 for each offense.
